Mr. and Mrs. Wm. Hunter spent Sunday with Mr. and Mrs. Radkie.

Obituary

The home of Mr. and Mrs. T. L. Askew of Kennewick was saddened on Thursday June 3rd by the death of their youngest daughter, Ilo Maude. Although in failing health for some time the news of her sudden death came as a complete shock to the neighborhood.

Ilo Maude Askew was born at Merlin Out, on Sept. 19, 1894. Possessed of a cheerful, frank disposition, Maude made friends with everyone and her demise at budding womanhood will be regretted by all. The funeral was held last Saturday to White Lake Methodist Church and was conducted by Rev. G. G. Pybus.

A large number of sorrowing friends followed the remains to their last resting place.

KI-BOSH

That's what the Hail will do, if it strikes your crop: put the Kibosh on it

Can you afford to take the chance?
Can you afford to lose all your work?
Can you afford to be broke another
? ? ? year ? ? ?

THINK Not only for yourself, but you may have others depending on you for support. The cost is so small you won't miss it if you have a good crop. Remember you don't have to put up a cent in cash and if you are lulled out you get something for your labor. If you harvest a good crop you have the Protection just the same. You can insure up to \$10 an acre.

Delays are Dangerous if YOU INSURE Do it Now!

I firmly believe I have the best Hail Insurance Proposition on the market.

Buy an Irrigated Farm FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE
Irrigation makes the farmer independent of rainfall and insures good crops, not occasionally, but every year.
Irrigation makes possible the successful culture of alfalfa, the king of feeders, which insures best returns in dairying and mixed farming.
Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.
Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied.
You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years to pay and the privilege of a loan of \$2,000.00 for improvements (10% interest); no principal payment at the end of first and second years and no water rental for first year. Assistance is also given in supplying stock in approved instances.
This is the most liberal offer of irrigated farm land on record.

THE GOLDEN EGG AND THE GOOSE

Old Fable Applies to "Made-in-Canada"—How Merchants Often Stand in Their Own Light

The following statement has been circulated in connection with the "Made-in-Canada" movement, and is well worthy of the attention not only of merchants to whom it is particularly addressed, but also of the average consumer who often sends his money away from his own town and outside of Canada when he could spend it just as advantageously in his own town for goods "Made-in-Canada."

"The Goose That Lays the Golden Eggs"
Don't kill her!
Don't do anything that will lessen her laying power!
On the contrary, feed her and nourish her so that you'll get more eggs from her! She needs your help and your good-will.
Did it ever occur to you that, out of every dollar's worth of Canadian-made goods you buy, 50 cents goes to the Canadian workman living in some Canadian town or city, and enables him to buy about 40 cents worth more goods from his tradesmen?
Did it ever occur to you that, out of every dollar's worth of foreign-made goods you sell, about 15 cents or more disappears from Canada forever, and the buying capacity of the Canadian workman is correspondingly reduced? The wages that should be in his pocket have been paid to the foreign workman.

Of \$12, over \$500,000.00 of Canadian money was spent for foreign goods. Think of it—six hundred and ninety-two millions! Half of this goes could have been made in Canada and Canadian workmen and Canadian retailers would then have been \$100,000,000.00 better off than they are today.
This tremendous leak of money \$2,000,000 per day is still going on! You can help to stop some of it and, moreover, you owe it to yourself and your own business to do all you can to check this drain on the country's resources.
So, decide now, to help feed the goose! Decide now to increase the sale of Canadian-made goods! Decide now to keep more money in Canada.

A NEW IMPETUS

United States Firms Looking to Canada for Branch Factories Again

During the past couple of years the movement of American industries to Canada and the establishment of branch factories in the Dominion slackened off to some extent, as compared to the rapid progress that was made in the building up of United States industries in Canada in 1910, 1911 and 1912. Now the movement is being accelerated again, and, according to the Boston "Daily Trade Record" of March 26th, the "Made-in-Canada" campaign is responsible.

After referring to the fact that the "Made-in-Canada" campaign is taking business from American firms, which are now compelled to plant branches in the Dominion, the Record quoted Mr. G. W. Curtis, agent of the Canadian Pacific Railway, who has just made a trip to the United States, and reports that the "Made-in-Canada" movement had caused a considerable falling off in the business which the United States had hitherto done in Canada. The new war tariff of 7 1/2 per cent. also served to keep out American goods.

As a result of these two factors, Mr. Curtis has received many inquiries from American manufacturers who are planning to establish branch factories in Canada so that they may benefit by the "Made-in-Canada" movement, instead of losing by it as is now the case with their factories on the United States side of the line.

This unsolicited testimony from United States to the effectiveness of the "Made-in-Canada" movement, which has swept over the Dominion during the past few months, affords abundant evidence of the value of the publicity methods adopted. That the "Made-in-Canada" movement will gather strength in the next few months if it is going to result in an increase in the number of industries in Canada will be the wish of all those who have a knowledge of the unemployment situation in the Dominion. Not only will new branches of American factories in Canada increase employment for Canadian mechanics, but the building and equipment of these factories will tend to revive building trade and create activity in many industries subsidiary to the building trade.

PUBLIC NOTICE

Public Notice is hereby given that there has been introduced in the Council of the Village of Carlstadt, a By-Law, of which the following is a short synopsis:

"A By-Law to restrain and regulate the running at large of animals in the Village of Carlstadt."

"In this By-Law 'animal' means any head of cattle, horse, sheep, goat, swine or poultry."

"All animals are prohibited to run at large in the Village at any time. Animals allowed to run at large shall be impounded, and, unless all fees, claims for damage, and expenses be sooner paid."

"Where damages are claimed, three appraisers, appointed by a Justice of the Peace, or a Member of the Council, shall view the damage committed, and fix the amount of damage to be allowed, and that a copy of same may be seen in each of the following places: Office of the Secretary-Treasurer, Post Office, Carlstadt Hotel, Great West Hotel."

"And further that, unless within thirty days of the publication of this notice, at least ten resident electors of the Village petition the Council to submit such By-Law to a vote of the resident electors of the Village, the Council will proceed to pass same."

V. E. STARR,
Secretary-Treasurer.

Every dollar you send out of town is a dollar away from you. It belongs to you, community. Spend it at home, with your home and land, where its value stays with you and helps to build up your interests. When you come to think of it, there are only two kinds of dollars—the "Dollar with Wings" and the "Development Dollar." The "Dollar with Wings" goes to build up the Far Eastern City, the Big Metropolitan. The "Development Dollar" goes to build up the home town. It helps build up a nation of real men and women. Then, let us make the dollars we spend "Development Dollars," home-town builders, building for us and our neighbors and our children, making our communities more prosperous, more happy, more contented.

The Liquor Dealers

Condemn their own Case

The Liquor Dealers say in an ad.
in the Edmonton Journal:

"That the proposed Liquor Act does not 'eradicate' the liquor business, and does NOT 'drive it from the Province.'"

"There are dozens of loop holes in the proposed Act, but for the present let us mention just one: The proposed Act allows a druggist to keep five gallons of alcohol on hand at a time. One would naturally expect such a quantity would be sufficient for medicinal purposes in any community; yet in addition the Act provides for the appointment of a salaried 'vendor,' whose sole business it will be to distribute alcohol. Why this duplication? Why are both needed?"

School 11 a.m.

A cordial invitation is extended
to all to attend these services.

In honor of the six thousand or
more Alberta soldiers who are in
training at the big military camp
in Calgary the fair year will be
called the "Khaki" fair. The fair
this year will be up to the stan-
dard of other years and in some
respects superior. In the evening
the Military Tattoo will be stand-
ing by seven massed bands. Free au-
dible attractions have been pro-
vided.

Carlsbad News

Billy Sunday's name has sud-
denly become one of the best
known on the American con-
tinent. When he left the city of
Philadelphia, after his cam-
paign there, 150,000 people
were at the depot to witness
departure. This story of Mr.
Sunday and his work is autho-
rized by himself.

COFFEE BERRIES

Round Kernels Are Stronger and Rich-
er Than Flat Ones.

Everybody is more or less familiar
with the term "mule berry" applied to
coffee. The term refers to the form
and style, not the use.

An examination of any kind of coffee
will show that about one kernel to
every twenty-five is quite round, like a
bean, while all the others are flat on
one side, like the half of a split bean.
These round or mule berries are always
found on the young, vigorous, new
wood of the previous year's growth at
the end of the branches.

The old wood produces flat berries
only. Each "pod" or fruit of the coffee
tree contains either two common flat
berries or but one round one. The
substance of the fruit in the one case
all goes into the single mule berry, and
in the other it is divided among two
flat ones.

This undoubtedly accounts for the
greater strength and richness of the
mule berry. In private plantations,
where the trees are carefully pruned
and cared for and the ground well cul-
tivated and fertilized, the coffee is al-
ways of finer quality and the propor-
tion of mule berries is larger.

The round berries may be seen in all
kinds of coffee, Bico, Cayman, Maracabo,
Mocha and other varieties contain
them as well as the Java-Exchange.

CALIFORNIA'S BIG TREES.

They Were First Seen by a White Man.

John Bidwell, in 1841.

It was June 20, 1841, that John
Bidwell discovered the "big trees" of
California. He was the first white
man so far as we know, who ever be-
held those monarchs of the forest.

Nine years later a hunter named
Dodd was led into the company of the
forest kings by a bear that he was
chasing, and it was by Dodd that the
knowledge of the monster trees was
spread abroad, but to Bidwell belongs
the distinction of having been the first
civilized man to gaze upon the wonder-
ful trees.

The "big trees," as the mighty se-
quoias are called, are found in Calaveras
county, Cal., chiefly in two
"groves," the Calaveras and the Mar-
iposa, at an altitude of about 5,000 feet
above the sea. They are probably the
remains of extensive woods belonging
to a long past epoch. Unfortunately
few of them are left, there being only
a few hundred left.

These mighty conifers are easily the
most remarkable of all trees both in
size and bulk. They are from 200 to
400 feet in height and from 15 to 40
feet in diameter—Londonia florid.

Chinese Complacence.

A French writer has given in La
Presse Medicale the results of his ob-
servations on the Chinese. He re-
marks that the exquisite complexion
of the young Chinese women is due
to the fact that they are less ex-
posed, but to careful manipulation of
the face done by expert masseuses.
They begin by a gentle pinching of the
cheeks between the tips of their fin-
gers, which lasts fully ten minutes,
then apply lotion on absorbent cotton,
then an unguent, and finish by knead-
ing the cheeks with an extreme del-
icacy of touch, always proceeding from
the nose and commissures of the lips
toward the ears. This is a harmless
and physiologically correct process
which can be recommended in cases,
rarer than they should be, where the
physician, is consulted concerning a
faded or otherwise unattractive com-
plexion.

Where Israel "Murmured."

As soon as our loads were arranged
and the riding camels selected we
mounted and rode off across the desert
or plain of El-Ka's to a neighboring
station, aiming for the Wadi Heiran.
The wind was blowing hard and the
sand stung considerably. In another
time El-Ka's was called the Wilder-
ness of Sin. This was the place where
the children of Israel murmured
against Moses and Aaron, lusting after
the fleshpots and bread they had left
behind in Egypt, and this was where
God, hearing their cry, sent them man-
na, which was supplied for the next
forty years. This desert presents an
awful picture of desolation, for, with
the exception of some bushes that per-
sist in growing in spite of the arid sur-
roundings, all of the eye meets are
towers, sand and gravel. — Wis-
dom Magazine.

A Crystal Critic!

"Above all, I am an artist," said the
actor. "From the moment I make my
entrance on the stage I forget every-
thing but my part. I leave my own
personality behind me. I am famous
for my role. The theater vanishes
the audience disappears."

"I've noticed that," interrupted the
critic.

"What?"

"That the audience disappears."

— Youth's Companion.

Dark Deeds.

"There is a man whom my husband
employs who openly shows a tendency
toward low places and who is used
for his dark deeds."

"Why, then, does your husband em-
ploy him?"

"I put coal in our cellar." — Bait
more American.

This Life.

There is only one way to get ready
for immortality, and that is to live
the life and live it as bravely and
cheerfully and faithfully as we can—
Van Dyke.

Economy is half the battle of life.
It is not so hard to earn money as to
spend it well. — Spurgeon.

How's the Sub?

ARE YOU MEAN SPIRIT- ED AND COWARDLY?

Do you lack the nerve to face the man you hold a
spite against? If so,
Vote for the proposed Liquor Act.

You can through it accuse the object of your spite with
illegal liquor transactions. You are thoroughly pro-
tected. Your name need never be mentioned (read
clause 44). The object of your spite will be held guilty
until he himself proves his innocence.

IT MEANS: Petty annoyances, petty persecutions,
large financial losses, complete removal
of any legislation controlling hotel ac-
commodations.

IT MEANS: Class legislation, wholesale boot-legging,
increased consumption of whiskey as com-
pared to beer, loss of revenue, large sums
sent annually to outside points with not
one cent paid to the government.

IT MEANS: Dives, lawlessness and encouragement of
underhand business and underhand
methods.

IT MEANS: That the interdict has absolutely no pro-
tection against himself at all.

Ask any fair minded temperance man if the thing is
not true. Do not ask a crank for his eyes are turned
inward and they see only a self made mental structure
which he admires because he made it himself.

He sees Prohibition, and the proposed
Liquor Act does not mean Prohibition
